1. Executive Summary

Namma-Skill is a specialized vocational training gateway designed for rural youth in Karnataka and surrounding regions. The platform bridges the information gap between vocational training centers and potential candidates, offering a curated, aspirational, and easy-to-use interface for career development.

2. Product Vision & Goals

- Vision: To be the primary digital bridge for rural vocational empowerment.
- Goals:
 - Reduce friction in finding verified vocational courses.
 - Increase enrollment rates for "Job Guaranteed" programs.
 - Provide a transparent application tracking system.

3. Target Audience

- Primary: Rural youth (Ages 18-30) seeking employment.
- Secondary: Vocational training institutes and regional skill centers.

4. Key Features

4.1 Course Discovery Engine

- Trade-Based Filtering: Filter courses by industry.
- Duration Categories: Short-term vs. Long-term courses.
- Job Guarantee Badge: Visual highlight for placement assurance.

4.2 Training Center Locator

- Map Integration: Google Maps real-time location.
- Direct Interaction: One-tap Call Center and Directions.
- District Filters: Search centers in specific districts.

4.3 Application & Profile System

- Profile Completion Tracking: Visual progress bar.
- Candidate Summary: Pre-application verification step.
- Application History: Persistent record synced with Firebase.

5. Technical Specifications

- Mobile Platform: Native Android (Kotlin).
- Backend Infrastructure: Firebase (Auth, Firestore, Functions).
- Location Services: Google Maps SDK.

6. User Flow

1. Login/Register: Secure email authentication.
2. Explore: Browse vocational catalog with smart filters.
3. Select: View detailed course and center information.
4. Apply: Review profile details and submit application.
5. Track: Monitor application status in My Profile.

7. Roadmap

- Phase 1: Vocational catalog and basic application flow (Completed).
- Phase 2: Real-time notifications and call center integration (Completed).
- Phase 3: Placement tracking and alumni community features (Upcoming).
